Current results for Eedi

theta_m=0.8, theta_f=0.8, rec=50; remove training exfr0.00 edges

Train edges: mastery 39,957; forgetting 527,549; recommendation 35,050

N = 5, 10, ..., 50; Ep thresholds = 0.4, 0.5, 0.6, 0.7; planned seeds = 2024, 2025, 2026.

Cell = mean across available seed-level means +/- sample SD; a single result is shown without SD.

Bold = best; underline = second best among available models, ranked on unrounded means.

Cross-model rankings are provisional where seed coverage differs. CF baselines are deterministic.
